Introduction

What is Super freight ?

WHAT WE DO!

We, Super Freight Logistics Pvt LTD., are a freight forwarder providing total logistics service to domestic And worldwide market. Our company established as a general ocean freight forwarder and extended our business to air freight forwarding, break bulk, project service, domestic logistics, warehouse and trade business. Now, we also provide professional and combined service to our valuable customers with intimate relationship.

To be a true leader in the transportation industry, we devote ourselves to understand customer's needs and various requirement. We have been improved ourselves to develop new combined service (total service) in terms of efficiency, cost saving and accuracy.

Super Freight Logistics Pvt LTD. has served "Door to Door Service" by making an agency agreement with world-wide freight forwarding companies. Also, our company provides a Specialized consolidation service in 'CHINA and INDIA area. We will try to provide better service to our customers with excellent teamwork so as to adapt globalization in various changeable environment throughout the world.

02

BUSINESS AREA

Different types of Business we provide for secure, low-cost, trusted and quick customer support.

Business Area

OCEAN & SEA FREIGHT

Shipping your goods can feel like navigating a stormy sea, but fear not! Choosing between sea freight and air freight

Custom Clearance Warehouse

Custom Clearance Warehousing: Imagine a secure zone where your imported goods can rest and recuperate from their long journey, all while avoiding hefty duties and pesky paperwork.

CONSOLE SERVICE

At Super Freight, we believe in simplifying logistics and giving you, the shipper, the power to manage your cargo with ease.

SPECIAL CONTAINER (REEFER, FLAT RACK, ETC)

These containers are a type that has no roof or walls on the sides. This makes them ideal for shipping oversized or bulky cargo that wouldn't fit in a standard container.

03

AIR & SEA FREIGHT

How we do it?

HOW WE DO IT!

We work in a Multimodal Operation (MTO) and handle equipment, FCL, LCL and Air cargoes. With our reliable partners worldwide, we are able to provide efficient and smooth operations with fast, friendly efficient quotation and cost effective solutions to our client.

Our services include custom clearance, preparation of shipment documents, consolidation, local delivery, arrangement for marine insurance and etc.
